ESDE LIVE ENDOSCOPY

Welcome message

Dear Colleagues,

It is my pleasure to welcome you to ESDE live endoscopy.

This event is dedicated to providing a unique educational experience, showcasing live, unedited endoscopic procedures performed by expert physicians from leading centers across Egypt and the Middle East.

Throughout this course, we aim to cover a range of techniques—from basic to advanced—offering insights that will benefit both aspiring and experienced endoscopists. By observing real-time procedures, we hope to foster a deeper understanding of endoscopy and inspire the next generation of specialists to achieve excellence in patient care.

Thank you for joining us on this journey. We are confident that this session will be both enlightening and impactful.

Course director
